

**Department of Process and Food Engineering  
Faculty of Engineering**

***UNDERTAKING OF LABORATORY SAFETY BRIEFING***

I have read and understand the following handbook and have sufficient knowledge of the laboratory safety before starting my laboratory/field work in related to my research project/area:

- a) The department's Laboratory Safety Handbook
- b) Laboratory Safety Notes

I understand my obligations regarding my own safety and the safety of others, having regard to the especially hazardous nature of the department's laboratories operations.

I understand also that I must introduce no new chemicals, substances, or equipment into the department's laboratories without the acknowledgement/approval from Head of Department Process and Food Engineering.
