

Lab Facilities

Lab Name : Chemical Process Engineering Lab II
Lab Supervisor : Dr. Zurina Zainal Abidin
Lab Technician : Ismail Abdullah
Tel : 89466472

No.	Equipment	Description
1	Absorption / Desorption Column	For separation processes study
2	Evaporator & Steam Boiler	For chemical processes study
3	Falling Film Absorber	For separation processes study
4	Solid Liquid Extraction	For separation processes study
5	Distillation Column	For separation of chemical substance by the fluid activation study base in a boiling fluid
6	Continuous Stirred Tank Reactor	For chemical reaction
7	Vapour Liquid Equilibrium Unit	For vapor-liquid phase equilibrium study
8	Plug Flow Reactor	For chemical reaction
